100AAi20 Assembly

Wave Grate 100AA20

E100i20

uPVC insulator

100i20

100i20 channel

Outlet extender
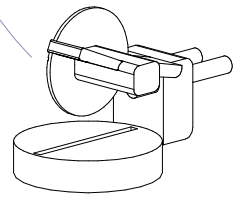

Use SikaFlex 11FC to fix the parts together. Use type 210 primer to prepare the surface.

Use a compound saw with aluminium cutting blade to cut grate. The haksaw can also be used.
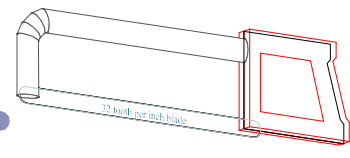

Use a hacksaw with 32TPI blade to cut stainless channel.

Example 900mm channel with ends on

Example 890mm grate

5mm

Cut the grate 5mm shorter each side to allow for stop ends.
Example, if overall length required is 900mm, cut the grate to 890mm.
